## Bible-in-Life Overview

Bible-in-Life lessons are sound, easy-to-teach and are designed to impact every student that is entrusted to your care-from the littlest ones to the most mature! And as the name implies Bible-in-Life helps each student put Bible truths to work where it counts-in their everyday life.

Here's why teachers love David C. Cook Bible-in-Life, it:

- Is Bible-based and Christ-centered
- Is easy-to-teach and easy to prepare
- Recognizes life needs of students and reveals biblical and practical application
- Incorporates teaching methods to developmental abilities of each age group
- Enables teachers to reach every student according to the individual learning styles

Teachers love the Four-Step Learning Plan because it's designed to mirror the compelling approach that Jesus often used.

- Jesus started where His students were.
- Jesus shared life-changing truth.
- Jesus explained how His truth applied.
- Jesus called for action.

The Four-Step Learning Plan follows a similar pattern:

### Step 1: Motivate

Connects your students' life experiences (work, home, school, etc.) to the Lesson Focus and gets them interested in the topic.

### Step 2: Learn the Facts

Presents the Bible story and gets students into Scripture.

### Step 3: Practice

Provides a variety of opportunities for students to practice the information they've just acquired.

### Step 4: Apply

Encourages students to apply what they've learned to their everyday experiences.
